

RESEARCH PROJECT

Promoting Health Equality in Young
Onset Dementia Care Delivery in
Global Majority Populations

ARE YOU OR A LOVED ONE LIVING WITH YOUNG ONSET DEMENTIA IN SOUTH EAST ENGLAND?

The Study

Our charity have an exciting study taking place. We are interested to get first hand experience of the support you received following a diagnosis of young onset dementia.

We are specifically focusing on people with a different cultural background to that of white British.

What does the study involve?

The research we will be conducting will involve 1 - 2 hours of your time and it will be interview based.
